A. The purpose of this modification is to:

1. Incorporate the contractor's Contract Change Proposal (CCP) 0077 to add a new line of High Capability Bar Code Label Printers with new enhancements such as improved ruggedness, a clear media window, color-coded operator cues and a back-lit LCD control panel in SLIN's X003EB, X003EK and X003EL. Also added are maintenance SLIN's X032EE thru X032EH. Lastly, the words, "Label Printer (300 & n 203 DPI), Z6000 & Z6M," are added to the Informational CLIN description under which maintenance SLIN's X032EA through X032ED are listed in the contract to describe maintenance for the equipment SLIN's related to CCP 0078 below.

2. Incorporate the contractor's CCP 0078 to substitute the Zebra Z6M, High Capability Bar Code Label Printer, for the Zebra Z6000 in contract in SLIN X003EA, since Zebra Technologies Corp. has announced an end of life for their Z6000 series.

3. Incorporate the contractor's CCP 0082 to delete the "CONUS only" notation from the description of SLIN X001QP. This restriction no longer applies since the drivers for international roaming are now provided with the 11Mbps products.

B. Section B-2, Supplies/Services, is hereby modified as follows:

1. The following equipment SLIN's, proposed in CCP 0077, are added to Part B-2 of the contract.
